TAMPA, FL, February 15, 2024—LM Funding America, Inc. (NASDAQ: LMFA) (“LM Funding” or the “Company”), a cryptocurrency mining and technology-based specialty finance company, today provided a preliminary, unaudited Bitcoin mining update for the month ended January 31, 2024.

Bruce M. Rodgers, Chairman and CEO of LM Funding, stated, "Our Bitcoin mining operations continue to grow steadily, and in January the Company mined 31.7 Bitcoin, all of which we chose to hold rather than sell due to the strength of our balance sheet. We are committed to an infrastructure-light strategy in our mining operations, focusing on acquiring assets closely linked to the price of Bitcoin. Recently, we invested in 300 Bitmain S21 Antminer mining machines, the most advanced Bitcoin mining equipment available, anticipating that their value will increase alongside the anticipated appreciation in the price of Bitcoin following a halving event. Historically, the price of Bitcoin has reached record highs within six months following a halving event, and the next event is anticipated to occur towards the end of April or in early May of this year."

The Company estimates the value of its 126.8 Bitcoin holdings was approximately \$5.4 million as of January 31, 2024, based on an estimated January 31, 2024, BTC price of \$42,500. Based upon the price of Bitcoin as of February 14, 2024 (approximately \$51,750), the total value of our 126.8 Bitcoin holdings would be worth approximately \$6.6 million.
