**TAMPA, FL, June 10, 2025** — LM Funding America, Inc. (NASDAQ: LMFA) (“LM Funding” or the “Company”), a Bitcoin mining and technology-based specialty finance company, today announced its preliminary, unaudited Bitcoin mining and operational update for the month ended May 31, 2025.

“In May, we remained focused on increasing the output of our mining operations in support of our Bitcoin treasury strategy,” said Bruce Rodgers, Chairman and CEO of LM Funding. “Although the number of Bitcoin mined was modestly lower due to the relocation of machines from our hosted Kentucky site to our wholly owned Oklahoma facility, our Bitcoin holdings grew both in volume and value, ending the month at 155 Bitcoin worth over \$16 million, or \$3.16 per share. We believe the revenue generated from power curtailment activities meaningfully reduces our exposure to both energy and Bitcoin price volatility. This risk-managed approach provides our shareholders with a

capital-efficient, Bitcoin-aligned platform that supports our long-term treasury accumulation strategy.”

The reduction in BTC mined is due in part to approximately 800 machines being repositioned from the Core Kentucky site to the Company’s Oklahoma site. Estimated curtailment and energy sales for May 2025 were approximately \$70,000.

The Company estimates that the value of its 155 Bitcoin holdings on May 31, 2025, was approximately \$16.2 million or \$3.16<sup>1</sup> per share, based on a Bitcoin price of approximately \$104,600 as of May 31, 2025, compared to a stock share price of \$1.93 as of May 30, 2025.

“Our focus remains on capital efficiency and asset optimization,” added Richard Russell, CFO of LM Funding. “The ability to monetize power curtailment while growing our Bitcoin holdings strengthens our balance sheet and supports long-term shareholder value.”
