

PROSPECTUS SUPPLEMENT  
(To Prospectus dated August 16, 2021)

**Up to \$4,700,000**

**LM Funding America, Inc.**

**Common Stock**

---

We have entered into an equity distribution agreement (the “Sales Agreement”) with Maxim Group LLC (“Maxim” or the “Sales Agent”), dated June 26, 2023, relating to the sale of shares of common stock offered by this prospectus supplement and the accompanying prospectus. In accordance with the terms of the Sales Agreement, under this prospectus supplement and the accompanying prospectus, we may offer and sell shares of common stock having an aggregate offering price of up to \$4,700,000 from time to time through the Sales Agent, acting as our sales agent.

Sales of our common stock, if any, under this prospectus supplement and the accompanying prospectus may be made by any method permitted that is deemed an “at the market offering” as defined in Rule 415 promulgated under the Securities Act of 1933, as amended (the “Securities Act”). If we and the Sales Agent agree on any method of distribution other than sales of our common stock into The Nasdaq Capital Market or another existing trading market in the United States at market prices, we will file a further prospectus supplement providing all information about such offering as required by Rule 424(b) under the Securities Act. The Sales Agent is not required to sell any specific number or dollar amount of common stock, but will act as our sales agent using commercially reasonable efforts consistent with its normal trading and sales practices. There is no arrangement for funds to be received in any escrow, trust or similar arrangement.

The Sales Agent will be entitled to a commission equal to 3% of the gross sales price per share sold under the Sales Agreement. The amount of proceeds we will receive from this offering, if any, will depend on the actual number of shares sold and the market price at which such shares are sold. Because there is no minimum offering amount required as a condition to close this offering, the actual total public offering amount, commissions and proceeds to us, if any, are not determinable at this time.

In connection with the sale of common stock on our behalf, the Sales Agent will be deemed to be an “underwriter” within the meaning of the Securities Act and the compensation of the Sales Agent will be deemed to be underwriting commissions or discounts. We have also agreed to provide indemnification and contribution to the Sales Agent with respect to certain liabilities, including liabilities under the Securities Act.

Our common stock is listed on The Nasdaq Capital Market under the symbol “LMFA.” On June 21, 2023, the last reported sale price of our common stock on The Nasdaq Capital Market was \$0.776 per share.

The aggregate market value of our outstanding common stock held by non-affiliates pursuant to General Instruction I.B.6 of Form S-3 was approximately \$14,217,564, which was calculated based on 13,670,735 shares of common stock outstanding as of June 26, 2023 held by non-affiliates and a price of \$1.04 per share, which was the closing price of our common stock on the Nasdaq Capital Market on May 15, 2023. Pursuant to General Instruction I.B.6 of Form S-3, in no event will we sell securities in a public primary offering with a value exceeding more than one-third of our public float in any 12-month period so long as our public float remains below \$75,000,000. We have not sold any securities pursuant to General Instruction I.B.6 of Form S-3 during the 12 calendar months prior to and including the date of this prospectus supplement.

### Overview

We currently have two lines of business: our recently commenced cryptocurrency mining business and our historical specialty finance business.

On September 15, 2021, we announced our plan to operate in the Bitcoin mining ecosystem, and we commenced Bitcoin mining operations in late September 2022. This business operation deploys our computing power to mine Bitcoin and validate transactions on the Bitcoin network. We believe that developments in Bitcoin mining have created an opportunity for us to deploy capital and conduct large-scale mining operations in the United States. We conduct this business through a wholly owned subsidiary, US Digital Mining and Hosting Co, LLC, a Florida limited liability company (“US Digital”), which we formed in 2021 to develop and operate our cryptocurrency mining business.

With respect to our specialty finance business, the Company has historically engaged in the business of providing funding to nonprofit community associations primarily located in the state of Florida. We offer incorporated nonprofit community associations, which we refer to as “Associations,” a variety of financial products customized to each Association’s financial needs. Our original product offering consists of providing funding to Associations by purchasing their rights under delinquent accounts that are selected by the Associations arising from unpaid Association assessments. Historically, we provided funding against such delinquent accounts, which we refer to as “Accounts,” in exchange for a portion of the proceeds collected by the Associations from the account debtors on the Accounts. In addition to our original product offering, we also purchase Accounts on varying terms tailored to suit each Association’s financial needs, including under our New Neighbor Guaranty™ program.

### Cryptocurrency Mining Business

Bitcoin was introduced in 2008 with the goal of serving as a digital means of exchanging and storing value. Bitcoin is a form of digital currency that depends upon a consensus-based network and a public ledger called a “blockchain”, which contains a record of every Bitcoin transaction ever processed. The Bitcoin network is the first decentralized peer-to-peer payment network, powered by users participating in the consensus protocol, with no central authority or middlemen, that has wide network participation. The authenticity of each Bitcoin transaction is protected through digital signatures that correspond with addresses of users that send and receive Bitcoin. Users have full control over remitting Bitcoin from their own sending addresses. All transactions on the Bitcoin blockchain are transparent, allowing those running the appropriate software to confirm the validity of each transaction. To be recorded on the blockchain, each Bitcoin transaction is validated through a proof-of-work consensus method, which entails solving complex mathematical problems to validate transactions and post them on the blockchain. This process is called mining. Miners are rewarded with Bitcoins, both in the form of newly-created Bitcoins and fees in Bitcoin, for successfully solving the mathematical problems and providing computing power to the network.

Factors such as access to computer processing capacity, interconnectivity, electricity cost, environmental factors (such as cooling capacity) and location play important roles in mining. In Bitcoin mining, “hashrate” is a measure of the computing and processing power and speed by which a mining computer mines and processes transactions on the Bitcoin network. We expect to continue increasing our computing power through 2023 and beyond as we expand the number of active mining machines. A company’s computing power measured in Hashrate is generally considered to be one of the most important metrics for evaluating Bitcoin mining companies.

## **Table of Contents**

We obtain Bitcoin as a result of our mining operations, and we sell Bitcoin from time to time, to support our operations and strategic growth. We plan to convert our Bitcoin to U.S. dollars. We may engage in regular trading of Bitcoin or engage in hedging activities related to our holding of Bitcoin. However, our decisions to hold or sell Bitcoin at any given time may be impacted by the Bitcoin market, which has been historically characterized by significant volatility. Currently, we do not use a formula or specific methodology to determine whether or when we will sell Bitcoin that we hold, or the number of Bitcoins we will sell. Rather, decisions to hold or sell Bitcoins are currently determined by management by monitoring the market in real time.

### **Specialty Finance Business**

In our specialty finance business, we purchase an Association's right to receive a portion of the Association's collected proceeds from owners that are not paying their assessments. After taking assignment of an Association's right to receive a portion of the Association's proceeds from the collection of delinquent assessments, we engage law firms to perform collection work on a deferred billing basis wherein the law firms receive payment upon collection from the account debtors or a predetermined contracted amount if payment from account debtors is less than legal fees and costs owed. Under this business model, we typically fund an amount equal to or less than the statutory minimum an Association could recover on a delinquent account for each Account, which we refer to as the "Super Lien Amount". Upon collection of an Account, the law firm working on the Account, on behalf of the Association, generally distributes to us the funded amount, interest, and administrative late fees, with the law firm retaining legal fees and costs collected, and the Association retaining the balance of the collection. In connection with this line of business, we have developed proprietary software for servicing Accounts, which we believe enables law firms to service Accounts efficiently and profitably.

Under our New Neighbor Guaranty program, an Association will generally assign substantially all of its outstanding indebtedness and accruals on its delinquent units to us in exchange for payment by us of monthly dues on each delinquent unit. This simultaneously eliminates a substantial portion of the Association's balance sheet bad debts and assists the Association to meet its budget by receiving guaranteed monthly payments on its delinquent units and relieving the Association from paying legal fees and costs to collect its bad debts. We believe that the combined features of the program enhance the value of the underlying real estate in an Association and the value of an Association's delinquent receivables.

Because we acquire and collect on the delinquent receivables of Associations, the Account debtors are third parties about whom we have little or no information. Therefore, we cannot predict when any given Account will be paid off or how much it will yield. In assessing the risk of purchasing Accounts, we review the property values of the underlying units, the governing documents of the relevant Association, and the total number of delinquent receivables held by the Association.

### **Recent Developments**

On June 2, 2023, the United States Bankruptcy Court for the Southern District of New York entered an order (the "Symbiont Bankruptcy Order") approving the sale of substantially all of the assets of Symbiont.io, LLC, as debtor in possession ("Symbiont"), to the Company pursuant to a form of Asset Purchase Agreement attached to the Symbiont Bankruptcy Sale Order (the "Asset Purchase Agreement") free and clear of all liens, claims and encumbrances. The Company and Symbiont signed the Asset Purchase Agreement on June 5, 2023, and the purchase and sale of the Symbiont assets pursuant to the Asset Purchase Agreement closed on June 5, 2023. Pursuant to the Asset Purchase Agreement, the Company purchased substantially all of the assets of Symbiont (the "Purchased Assets") for a purchase price of \$2,589,416, which was paid by means of a credit bid of the full amount of the note payable owed by Symbiont to the Company. The Purchased Assets are comprised principally of intellectual property and software code relating to Symbiont's financial services blockchain enterprise platform. The Company intends to pursue strategic relationships and explore various use cases to commercialize the Purchased Assets. The Company did not assume any liabilities of Symbiont in the transaction.

## Risk Factors

*An investment in our common stock involves a high degree of risk. Prior to making a decision about investing in our securities, you should carefully consider the specific risk factors discussed below as well as the risk factors discussed under the section entitled "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 and our subsequent Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and other filings we make under the Exchange Act, each of which is incorporated by reference in this prospectus supplement in its entirety, together with all of the other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus, the documents incorporated by reference herein and therein, and any related free writing prospectuses we may issue. The risks and uncertainties we have described are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our operations. If any such risks actually occur, our business, financial condition, or results of operations could be materially and adversely affected. In such cases, the trading price of our common stock could decline, and you may lose all or part of your investment.*

### **Risks Related to this Offering**

***Management will have broad discretion as to the use of the proceeds from this offering, and we may use the proceeds in ways in which you and other shareholders may disagree.***

We have not designated any amount of the net proceeds we will receive from this offering for any particular purpose. Accordingly, our management will have broad discretion as to the application of such net proceeds and could use them for purposes other than those contemplated at the time of this offering. Our shareholders may not agree with the manner in which our management chooses to allocate and spend such net proceeds. In addition, such proceeds could be applied in ways that do not improve our operating results or increase the value of your investment. Our failure to apply these funds effectively could have a material adverse effect on our business, delay the development and commercialization of our products and cause the price of our common stock to decline.

***Investors in this offering may suffer immediate and substantial dilution.***

Although the assumed sale price of \$0.776 per share in this prospectus is lower than our net tangible book value per share as of March 31, 2023, the shares in this offering will be sold at market prices which may fluctuate substantially. Accordingly, the price per share at which shares are actually sold in this offering may be substantially higher than the pro forma net tangible book value per share at the time a sale is made. In that case, investors in this offering may suffer immediate and substantial dilution. Please refer to the section entitled "Dilution" below.

***The actual number of shares we will issue in this offering under the Sales Agreement with the Sales Agent, at any one time or in total, is uncertain.***

Subject to certain limitations set forth in the Sales Agreement with the Sales Agent and compliance with applicable law, we have the discretion to deliver issuance notices to the Sales Agent at any time throughout the term of the Sales Agreement. The number of shares that are sold by the Sales Agent, if any, after we deliver an issuance notice will fluctuate based on the market price of our common stock during the period during which sales are made and the limits we set with the Sales Agent.

***Sales of a substantial number of our shares in the public market could cause our stock price to fall.***

We may issue and sell additional shares in the public markets, including during this offering. As a result, a substantial number of our shares may be sold in the public market. Sales of a substantial number of our shares in the public markets, including during this offering, or the perception that such sales could occur, could depress the market price of our shares and impair our ability to raise capital through the sale of additional equity securities.

---

## Table of Contents

***You may experience future dilution as a result of future equity offerings or the exercise of our outstanding options or warrants.***

In order to raise additional capital, we may in the future offer additional of our common stock or other securities convertible into or exchangeable for our common stock at prices that may not be the same as the price per share in this offering. We may sell our common stock or other securities convertible into or exchangeable for our common stock in any other offering at a price per share that is less than the price per share paid by investors in this offering, and investors purchasing our common stock or other securities in the future could have rights superior to existing shareholders. The exercise of our outstanding options and warrants may adversely affect our stock price due to sales of a large number of our shares or the perception that such sales could occur. These factors also could make it more difficult to raise funds through future offerings of our securities, and could adversely impact the terms under which we could obtain additional equity capital. Exercise of outstanding options and warrants or any future issuance of additional common stock or other equity securities, including but not limited to options, warrants or other derivative securities convertible into our common stock, may result in significant dilution to our shareholders and may decrease our stock price.

***The common stock offered hereby will be sold in “at the market offerings,” and investors who buy shares at different times will likely pay different prices.***

Investors who purchase shares in this offering at different times will likely pay different prices, and so may experience different outcomes in their investment results. We will have discretion, subject to market demand, to vary the timing, prices and numbers of shares sold, and the Sales Agreement does not specify any required minimum or maximum sales price. Investors may experience a decline in the value of their shares as a result of share sales made at prices lower than the prices they paid.

**Use of Proceeds**

In accordance with the terms of the Sales Agreement, under this prospectus supplement and the accompanying prospectus, we may issue and sell shares of our common stock having an aggregate offering price of up to \$4,700,000 from time to time through or to the Sales Agent. The amount of proceeds we will receive from this offering, if any, will depend upon the actual number of shares of our common stock sold and the market price at which such shares are sold. Because there is no minimum offering amount required as a condition to close this offering, the actual total public offering amount, commissions and proceeds to us, if any, are not determinable at this time.

We intend to use the net proceeds from this offering for general corporate purposes, including working capital and funding the purchase of additional bitcoin mining machines, as well as for potentially funding the further development and commercialization of the intellectual property assets that we acquired from Symbiont.io, LLC on June 5, 2023.

Pending their use, we intend to invest the net proceeds to us from this offering in short-term, investment grade, interest bearing instruments or hold them as cash.

Our management will have broad discretion in the allocation of the net proceeds of this offering, and investors will be relying on the judgment of our management with regard to the use of these net proceeds.

## Dilution

If you purchase any of the shares of common stock offered by this prospectus supplement, you may experience dilution to the extent of the difference between the offering price per share you pay in this offering and the adjusted net tangible book value per share immediately after this offering.

Our historical net tangible book value as of March 31, 2023 was approximately \$43,829,000, or approximately \$3.35 per outstanding share. “Net tangible book value” is total assets, minus intangible assets, minus total liabilities. “Net tangible book value per share” is net tangible book value divided by the total number of shares outstanding. Our pro forma net tangible book value per share as of March 31, 2023, which is \$2.99 per share, is equal to our historical net tangible book value per share as of March 31, 2023, as adjusted to give effect to the issuance of 1,560,000 shares of restricted common stock under our equity plan in April 2023.

The shares in this offering will be sold at market prices which may fluctuate substantially. For purposes of calculating dilution, we have assumed a sale price of \$0.776 per share, which was the closing price of our stock on The Nasdaq Capital Market on June 21, 2023. However, since the shares may be sold at a variety of prices, these dilution numbers are merely an example of potential dilutive (or accretive) effect based on the assumed sales price.

After giving effect to adjustments relating to the offering and assuming the sale of \$4,700,000 of shares of our common stock at an assumed offering price of \$0.776 per share (the closing price of our common stock on The Nasdaq Capital Market as of June 21, 2023), our adjusted net tangible book value on March 31, 2023 would have been approximately \$48,322,000, or \$2.33 per share on a pro forma basis. The adjustments made to determine adjusted pro forma net tangible book value per share are the following:

- An increase in total assets to reflect the net proceeds of the offering after deducting commissions and our estimated offering expenses; and
- The addition of 6,056,701 shares offered by this prospectus supplement, assuming the offer and sale of \$4,700,000 of shares of our common stock (based on the closing price of our common stock on The Nasdaq Capital Market on June 21, 2023), to the number of shares outstanding.

The following table illustrates the decrease in pro forma net tangible book value of \$0.66 per share to existing shareholders and the immediate accretion of \$1.55 per share (the difference between the assumed offering price per share and the pro forma adjusted net tangible book value per share) to new investors based on an assumed offering price of \$0.776 per share:

Assumed public offering price per share	\$0.776
Pro forma net tangible book value per share as of March 31, 2023	\$ 2.99
Decrease in pro forma net tangible book value per share attributable to the offering	\$(0.66)
Adjusted pro forma net tangible book value per share as of March 31, 2023, after giving effect to the offering	\$ 2.33
Accretion per share to new investors in the offering	\$ 1.55

The foregoing table is based on 14,651,883 shares outstanding as of June 21, 2023. This number of shares excludes:

- 7,677,441 shares of common stock issuable upon the exercise of warrants outstanding as of June 21, 2023, with a weighted average exercise price of \$5.00 per share;
- 3,660 shares of common stock issuable upon the exercise of options outstanding as of June 21, 2023 under our 2015 Omnibus Incentive Plan;
- 3,593,918 shares of common stock issuable upon the exercise of options outstanding as of June 21, 2023 under our 2021 Omnibus Incentive Plan; and

---

## Table of Contents

- 846,082 shares of common stock reserved for future grant or issuance as of June 21, 2023 under our 2021 Omnibus Incentive Plan.

Each \$0.25 increase in the assumed public offering price of \$0.776 per share, which was the closing price of our common stock on The Nasdaq Capital Market on June 21, 2023, would increase our as adjusted pro forma net tangible book value per share after this offering by an additional \$0.18, which at an assumed offering price of \$1.026 per share would result in accretion to investors participating in this offering of \$1.48, assuming that the dollar amount of shares of common stock offered by us, as set forth on the cover page of this prospectus supplement, remains the same, and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. On the other hand, each \$0.25 decrease in the assumed public offering price of \$0.776 per share would decrease our as adjusted pro forma net tangible book value per share after this offering by an additional \$0.28, which at an assumed offering price of \$0.526 would result in accretion per share to investors participating in this offering of \$1.52 per share, respectively, assuming that the number of shares of common stock offered by us, as set forth on the cover page of this prospectus supplement, remains the same, and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.

To the extent that outstanding warrants or options are exercised, you will experience further dilution. In addition, we may choose to raise additional capital due to market conditions or strategic considerations, even if we believe that we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our shareholders.

### Plan of Distribution

Pursuant to the Sales Agreement with Maxim, Maxim has agreed to act as exclusive sales agent in connection with this offering of our common stock pursuant to this prospectus supplement and the accompanying prospectus. Maxim is not purchasing or selling any of the shares of our common stock offered by this prospectus supplement, nor is it required to arrange the purchase or sale of any specific number or dollar amount of shares of our common stock but have agreed to use their reasonable best efforts to arrange for the sale of all of the shares of our common stock offered hereby.

Upon delivery of a transaction notice and subject to the terms and conditions of the Sales Agreement, Maxim may sell shares of our common stock by any method permitted by law deemed to be an “at-the-market” equity offering as defined in Rule 415 promulgated under the Securities Act, including sales made directly on or through the Nasdaq Capital Market, the existing trading market for our common stock, sales made to or through a market maker other than on an exchange or otherwise, in negotiated transactions at market prices prevailing at the time of sale or at prices related to such prevailing market prices, and/or any other method permitted by law, including in privately negotiated transactions.

We will pay Maxim in cash, upon each sale of shares of our common stock pursuant to the Sales Agreement, a commission equal to 3% of the gross proceeds from each sale of shares of our common stock. Because there is no minimum offering amount required as a condition to this offering, the actual total public offering amount, commissions and proceeds to us, if any, are not determinable at this time. In addition, we agreed to reimburse Maxim upon request for its costs and out-of-pocket expenses incurred in connection with its services under this offering, including the fees and out-of-pocket expenses of its legal counsel, up to an aggregate of \$30,000. In addition, we agreed to pay Maxim \$3,500 for its legal fees on each quarter for which a bringdown is required. We shall bear and be responsible for all expenses that are customarily borne by issuers for transactions of the type set forth herein.

Settlement for sales of shares of our Common Stock will occur on the second business day following the date on which any sales are made, or on some other date that is agreed upon by Maxim and us in connection with a particular transaction, in return for payment of the net proceeds to us. There is no arrangement for funds to be received in an escrow, trust or similar arrangement. Sales of shares of our Common Stock as contemplated in this prospectus supplement will be settled through the facilities of The Depository Trust Company or by such other means as we and Maxim may agree upon.

We have agreed to provide indemnification and contribution to Maxim and specified persons against certain civil liabilities, including liabilities under the Securities Act, and the Securities Exchange Act of 1934, as amended, or the Exchange Act, and to contribute to payments that Maxim may be required to make in respect of such liabilities.

Maxim may be deemed to be an underwriter within the meaning of Section 2(a)(11) of the Securities Act, and any commissions received by them and any profit realized on the resale of the shares sold by them while acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. As an underwriter, Maxim would be required to comply with the requirements of the Securities Act and the Exchange Act, including, without limitation, Rule 415(a)(4) under the Securities Act and Rule 10b-5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of shares by the agent acting as principal. Under these rules and regulations, Maxim:

- may not engage in any stabilization activity in connection with our securities; and
- may not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until it has completed its participation in the distribution.

## PROSPECTUS SUMMARY

*The information contained in or incorporated by reference into this prospectus summarizes certain information about our company. It may not contain all of the information that is important to you. To understand this offering fully, you should read carefully the entire prospectus and the other information incorporated by reference into this prospectus.*

### **Our Business**

LM Funding America, Inc. (“we”, “our”, “LMFA”, or the “Company”) is a specialty finance company that is engaged primarily in the business of providing funding to nonprofit community associations, with a focus on associations in the State of Florida. We offer incorporated nonprofit community associations, which we refer to as “Associations,” a variety of financial products customized to each Association’s financial needs. Our original product offering consists of providing funding to Associations by purchasing their rights under delinquent accounts that are selected by the Associations arising from unpaid Association assessments. Historically, we provided funding against such delinquent accounts, which we refer to as “Accounts,” in exchange for a portion of the proceeds collected by the Associations from the account debtors on the Accounts. In addition to our original product offering, we also purchase Accounts on varying terms tailored to suit each Association’s financial needs, including under our New Neighbor Guaranty™ program. In addition to the foregoing business, we are exploring other specialty finance business opportunities that are complementary to or that can leverage our historical business.

### **Specialty Finance Company**

We purchase an Association’s right to receive a portion of the Association’s collected proceeds from owners that are not paying their assessments. After taking assignment of an Association’s right to receive a portion of the Association’s proceeds from the collection of delinquent assessments, we engage law firms to perform collection work on a deferred billing basis wherein the law firms receive payment upon collection from the account debtors or a predetermined contracted amount if payment from account debtors is less than legal fees and costs owed. Under this business model, we typically fund an amount equal to or less than the statutory minimum that an Association could recover on a delinquent account for each Account, which we refer to as the “Super Lien Amount”. Upon collection of an Account, the law firm working on the Account, on behalf of the Association, generally distributes to us the funded amount, interest, and administrative late fees, with the law firm retaining legal fees and costs collected, and the Association retaining the balance of the collection. In connection with this line of business, we have developed proprietary software for servicing Accounts, which we believe enables law firms to service Accounts efficiently and profitably.

Under our New Neighbor Guaranty program, an Association will generally assign substantially all of its outstanding indebtedness and accruals on its delinquent units to us in exchange for payment by us of monthly dues on each delinquent unit. This simultaneously eliminates a substantial portion of the Association’s balance sheet bad debts and assists the Association to meet its budget by receiving guaranteed monthly payments on its delinquent units and relieving the Association from paying legal fees and costs to collect its bad debts. We believe that the combined features of the program enhance the value of the underlying real estate in an Association and the value of an Association’s delinquent receivables. We intend to leverage our proprietary software platform, as well as our industry experience and knowledge gained from our original line of business, to expand the New Neighbor Guaranty program in certain situations and to potentially develop other new products in the future.

Because we acquire and collect on the delinquent receivables of Associations, the Account debtors are third parties about whom we have little or no information. Therefore, we cannot predict when any given Account will be paid off or how much it will yield. In assessing the risk of purchasing Accounts, we review the property values of the underlying units, the governing documents of the relevant Association, and the total number of delinquent receivables held by the Association.

## **Specialty Finance Products**

### Original Product

Our original product relies upon Florida statutory provisions that effectively protect the principal amount invested by us in each Account. In particular, Section 718.116(1), Florida Statutes, makes purchasers and sellers of a unit in an Association jointly and severally liable for all past due assessments, interest, late fees, legal fees, and costs payable to the Association. As discussed above, the Florida Statutes grants to Associations a so-called "super lien", which is a category of lien that is given a statutorily higher priority than all other types of liens other than property tax liens. The amount of the Association's priority over a first mortgage holder that takes title to a property through foreclosure (or deed in lieu), referred to as the Super Lien Amount, is limited to twelve months' past due assessments or, if less, one percent (1.0%) of the original mortgage amount. Under our contracts with Associations for our original product, we pay Associations an amount up to the Super Lien Amount for the right to receive all collected interest and late fees on Accounts purchased from the Associations.

In other states in which we have offered our original product, which are currently only in Washington, Colorado and Illinois, we rely on statutes that we believe are similar to the above-described Florida statutes in relevant respects. A total of approximately 22 U.S. states, Puerto Rico and the District of Columbia have super lien statutes that give Association assessments super lien status under some circumstances, and of these states, we believe that all of these jurisdictions other than Alaska have a regulatory and business environment that would enable us to offer our original product to Associations in those states on materially the same basis.

### New Neighbor Guaranty

In 2012, we developed a new product, the New Neighbor Guaranty, wherein an Association assigns substantially all of its outstanding indebtedness and accruals on its delinquent units to us in exchange for payments in an amount equal to the regular ongoing monthly or quarterly assessments for delinquent units when those amounts would be due to the Association. We assume both the payment and collection obligations for these assigned Accounts under this product. This simultaneously eliminates an Association's balance sheet bad debts and assists the Association to meet its budget by receiving guaranteed assessment payments on its delinquent units and relieving the Association from paying legal fees and costs to collect its bad debts. We believe that the combined features of the product enhance the value of the underlying real estate in an Association and the value of an Association's delinquent receivables.

Before we implement the New Neighbor Guaranty program for an Association, the Association typically asks us to conduct a review of its accounts receivable. After we have conducted the review, we inform the Association which Accounts we are willing to purchase and the terms of such purchase. Once we implement the New Neighbor Guaranty program, we begin making scheduled payments to the Association on the Accounts as if the Association had non-delinquent residents occupying the units underlying the Accounts. Our New Neighbor Guaranty contracts typically allow us to retain all collection proceeds on each Account other than special assessments and accelerated assessment balances. Thus, the Association foregoes the potential benefit of a larger future collection in exchange for the certainty of a steady stream of immediate payments on the Account.

The risks and uncertainties we have described are not the only ones facing our company. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also affect our business operations. Additional risk factors may be included in a prospectus supplement relating to a particular offering of securities.*

*If any of these risks were to occur, our business, financial condition, results of operations or cash flows could be adversely affected. You could lose all or part of your investment. When we offer and sell any securities pursuant to a prospectus supplement, we may include additional risk factors relevant to that offering in the prospectus supplement.*

## **USE OF PROCEEDS**

Under this prospectus, we may offer and sell from time to time securities in one or more offerings in amounts, at prices and on terms determined at the time of the offering. Each time securities are sold using this prospectus, we will provide a supplement to this prospectus and possibly other offering materials containing specific information about the offering and the terms of the securities being sold, including the offering price. We will describe the use of the net proceeds from sales of the securities made using a prospectus supplement in the applicable prospectus supplement.

## DESCRIPTION OF CAPITAL STOCK

### General

The following description summarizes certain important terms of our capital stock. Because it is a summary, it may not contain all of the information that may be important to you. For a complete description of the matters set forth in this section, entitled "Description of Capital Stock," you should refer to our certificate of incorporation, as amended (the "certificate of incorporation"), and our bylaws (the "bylaws"), and to the applicable provisions of Delaware law. We are authorized under our certificate of incorporation to issue up to 30,000,000 shares of common stock, par value \$0.001 per share, and 5,000,000 shares of preferred stock, par value \$0.001 per share, all of which are undesignated as to series.

As of June 30, 2021, we had 5,414,295 shares of common stock issued and outstanding and no shares of preferred stock issued and outstanding. We will disclose in an applicable prospectus supplement the number of shares of common stock and preferred stock then outstanding.

### Common Stock

#### *Voting Rights*

Holders of our common stock are entitled to one vote per share on all matters to be voted upon by shareholders. Holders of our common stock are not entitled to cumulate their votes in the election of directors. Generally, all matters to be voted on by stockholders must be approved by a majority (or, in the case of election of directors, by a plurality) of the votes entitled to be cast by all holders of common stock present in person or represented by proxy, voting together as a single class.

#### *No Preemptive or Similar Rights*

No shares of common stock will be subject to redemption or have preemptive rights to purchase additional shares of common stock. Holders of shares of our common stock do not have subscription, redemption or conversion rights. There will be no redemption or sinking fund provisions applicable to the common stock.

#### *Dividend Rights*

The holders of such common stock are entitled to receive dividends when and as declared by our board of directors out of funds legally available for dividends.

#### *Right to Receive Liquidation Distributions*

Upon a liquidation of our company, our creditors and any holders of our preferred stock with preferential liquidation rights, will be paid before any distribution to holders of our common stock. The holders of our common stock would be entitled to receive a pro rata distribution per share of any excess amount. The rights, preferences and privileges of the holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock which we may designate and issue in the future.

### Preferred Stock

Pursuant to our certificate of Incorporation, we are currently authorized to designate and issue up to 5,000,000, shares of preferred stock, \$0.001 par value per share. Our Board of Directors has the authority, without further action by our stockholders, to issue shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, conversion rights, voting rights, terms of redemption, liquidation, preferences, sinking fund terms, and the number of shares constituting any series.

If we offer preferred stock, we will file the terms of the preferred stock with the SEC and the prospectus supplement and/or other offering material relating to that offering will include a description of the specific terms of the offering, including any of the following applicable specific terms:

- the series, the number of shares offered and the liquidation value of the preferred stock;
- the price at which the preferred stock will be issued;
- the dividend rate, the dates on which the dividends will be payable and other terms relating to the payment of dividends on the preferred stock;

---

## Table of Contents

- the liquidation preference of the preferred stock;
- the voting rights of the preferred stock;
- whether the preferred stock is redeemable or subject to a sinking fund, and the terms of any such redemption or sinking fund;
- whether the preferred stock is convertible or exchangeable for any other securities, and the terms of any such conversion; and
- any additional rights, preferences, qualifications, limitations and restrictions of the preferred stock.

It is not possible to state the actual effect of the issuance of any shares of preferred stock upon the rights of holders of our common stock until our board of directors determines the specific rights of the holders of the preferred stock. However, these effects might include:

- restricting dividends on the common stock;
- diluting the voting power of the common stock;
- impairing the liquidation rights of the common stock; and
- delaying or preventing a change in control of our company.

The purpose of authorizing our Board of Directors to issue preferred stock and determine its rights and preferences is to eliminate delays associated with a stockholder vote on specific issuances. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions, future financings and other corporate purposes, could have the effect of making it more difficult for a third party to acquire, or could discourage a third party from seeking to acquire, a majority of our outstanding voting stock. Additionally, the issuance of preferred stock may adversely affect the holders of our common stock by restricting dividends on the common stock, diluting the voting power of the common stock or subordinating the liquidation rights of the common stock. As a result of these or other factors, the issuance of preferred stock could have an adverse impact on the market price of our common stock.

### **Warrants**

As of June 30, 2021, the Company had outstanding warrants to purchase up to an aggregate of 391,900 shares of Common Stock at an average exercise price of \$4.42 per share. Such outstanding warrants outstanding will expire as follows: 28,600 warrants on October 31, 2023, 25,000 warrants on May 1, 2025, 338,300 warrants on August 17, 2025, , and are subject to adjustment for stock splits, stock dividends, reverse stock splits, and the like. Such outstanding warrants also include a full-ratchet anti-dilution exercise price adjustment upon the issuance of any common stock, securities convertible into common stock or certain other issuances at a price below the then-existing exercise price of the warrants, with certain exceptions..

### **Anti-Takeover Provisions**

Our certificate of incorporation and bylaws contain certain provisions that are intended to enhance the likelihood of continuity and stability in the composition of our board of directors and in the policies formulated by the board of directors. In addition, certain provisions of Delaware law may hinder or delay an attempted takeover of us other than through negotiation with our board of directors. These provisions, each described further below, could have the effect of discouraging certain attempts to acquire us or remove incumbent management even if some or a majority of our shareholders were to deem such an attempt to be in their best interest, including a takeover attempt in which the potential purchaser offers to pay a per share price greater than the current market price of our common or preferred stock.

In our certificate of incorporation, we elected not to be governed by Section 203 of the Delaware General Corporation Law, or DGCL, which regulates corporate takeovers. This section prevents certain Delaware corporations, under certain circumstances, from engaging in a “business combination” with an “interested stockholder.”

## **Table of Contents**

### ***Classified Board of Directors***

Our certificate of incorporation and bylaws provide that our board of directors shall be divided into three classes of directors, with the classes as nearly equal in number as possible. As a result, approximately one-third of our board of directors is elected each year. We believe that the classification of our board of directors facilitates the continuity and stability of our business strategies and policies. However, our classified board could have the effect of making the replacement of incumbent directors more time consuming and difficult. At least two annual meetings of shareholders, instead of one, will generally be required to effect a change in a majority of our board of directors.

### ***Requirements for Advance Notification of Shareholder Proposals and Nomination of Directors***

Our bylaws establish advance notice procedures with respect to shareholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of our board of directors or a committee of the board of directors. Our bylaws also specify the form and content of a stockholder's notice. These provisions could make the proposal of business by our shareholders, including the nomination of directors to replace incumbent directors, more time consuming and difficult.

### ***Board of Directors Size and Vacancies***

Under our bylaws, our board of directors has the power to set the size of the board. Additionally, any vacancy on our board of directors, including a vacancy resulting from an enlargement of the board of directors, may be filled by vote of a majority of the remaining directors, even if less than a quorum. The ability to increase or decrease the size of the board of directors, and to fill any vacancies resulting from any such enlargement, could make it more difficult for a third party to acquire control of us.

### ***No Cumulative Voting***

DGCL provides that stockholders are not entitled to cumulate votes in the election of directors unless a corporation's certificate of incorporation provides otherwise. The certificate of incorporation does not provide for cumulative voting.

### **Trading**

Our common stock is listed on the NASDAQ Capital Market under the symbol "LMFA."

### **Transfer Agent and Registrar**

The transfer agent and registrar for our common stock is VStock Transfer, LLC, 18 Lafayette Place, Woodmere, NY 11598; telephone (212) 828-8436.

## DESCRIPTION OF WARRANTS

### Warrants

We may issue warrants that entitled the holder to purchase preferred stock, common stock or other securities. Warrants may be issued independently or together with preferred stock, common stock, or other securities offered by any prospectus supplement and/or other offering material and may be attached to or separate from any such offered securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between us and a bank or trust company, as warrant agent, all as will be set forth in the prospectus supplement and/or other offering material relating to the particular issue of warrants. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation or relationship of agency or trust for or with any holders of warrants or beneficial owners of warrants.

The following summary of certain provisions of the warrants does not purport to be complete and is subject to, and is qualified in its entirety by reference to, all provisions of the warrant agreements.

Reference is made to the prospectus supplement and/or other offering material relating to the particular issue of warrants offered pursuant to such prospectus supplement and/or other offering material for the terms of and information relating to such warrants, including, where applicable:

- the number of shares of common stock purchasable upon the exercise of warrants to purchase common stock and the price at which such number of shares of common stock may be purchased upon such exercise;
- the number of shares and series of preferred stock purchasable upon the exercise of warrants to purchase preferred stock and the price at which such number of shares of such series of preferred stock may be purchased upon such exercise;
- the designation and number of units of other securities purchasable upon the exercise of warrants to purchase other securities and the price at which such number of units of such other securities may be purchased upon such exercise;
- the date on which the right to exercise such warrants shall commence and the date on which such right shall expire;
- U.S. federal income tax consequences applicable to such warrants;
- the number of warrants outstanding as of the most recent practicable date; and
- any other terms of such warrants.

Warrants will be issued in registered form only. The exercise price for warrants will be subject to adjustment in accordance with provisions described in the applicable prospectus supplement and/or other offering material.

Each warrant will entitle the holder thereof to purchase such number of shares of preferred stock, common stock or other securities at such exercise price as shall in each case be set forth in, or calculable from, the prospectus supplement and/or other offering material relating to the warrants, which exercise price may be subject to adjustment upon the occurrence of certain events as set forth in such prospectus supplement and/or other offering material. After the close of business on the expiration date, or such later date to which such expiration date may be extended by us, unexercised warrants will become void. The place or places where, and the manner in which, warrants may be exercised shall be specified in the prospectus supplement and/or other offering material relating to such warrants.

Prior to the exercise of any warrants to purchase preferred stock, common stock or other securities, holders of such warrants will not have any of the rights of holders of preferred stock, common stock or other securities, as the case may be, purchasable upon such exercise, including the right to receive payments of dividends, if any, on the preferred stock, or common stock purchasable upon such exercise, or to exercise any applicable right to vote.

## DESCRIPTION OF UNITS

We may issue units consisting of any combination of the other types of securities offered under this prospectus in one or more series. We may evidence each series of units by unit certificates that we will issue under a separate agreement. We may enter into unit agreements with a unit agent. Each unit agent will be a bank or trust company that we select. We will indicate the name and address of the unit agent in the applicable prospectus supplement relating to a particular series of units.

The following description, together with the additional information included in any applicable prospectus supplement, summarizes the general features of the units that we may offer under this prospectus. You should read any prospectus supplement and any free writing prospectus that we may authorize to be provided to you related to the series of units being offered, as well as the complete unit agreements that contain the terms of the units. Specific unit agreements will contain additional important terms and provisions and we will file as an exhibit to the registration statement of which this prospectus is a part, or will incorporate by reference from another report that we file with the SEC, the form of each unit agreement relating to units offered under this prospectus.

If we offer any units, certain terms of that series of units will be described in the applicable prospectus supplement, including, without limitation, the following, as applicable:

- the title of the series of units;
- identification and description of the separate constituent securities comprising the units;
- the price or prices at which the units will be issued;
- the date, if any, on and after which the constituent securities comprising the units will be separately transferable;
- a discussion of certain United States federal income tax considerations applicable to the units; and
- any other terms of the units and their constituent securities.

## PLAN OF DISTRIBUTION

We may sell securities in any one or more of the following ways from time to time: (1) through agents; (2) to or through underwriters; (3) through brokers or dealers; (4) directly to purchasers, including through a specific bidding, auction or other process; or (5) through a combination of any of these methods of sale. The applicable prospectus supplement and/or other offering materials will contain the terms of the transaction, the name or names of any underwriters, dealers, or agents and the respective amounts of securities underwritten or purchased by them, the initial public offering price of the securities, and the applicable agent's commission, dealer's purchase price or underwriter's discount. Any dealers and/or agents participating in the distribution of the securities may be deemed to be underwriters, and compensation received by them on resale of the securities may be deemed to be underwriting discounts.

Any initial offering price, dealer purchase price, discount or commission may be changed from time to time.

The securities may be distributed from time to time in one or more transactions, at negotiated prices, at a fixed price or fixed prices (that may be subject to change), at market prices prevailing at the time of sale, at various prices determined at the time of sale or at prices related to prevailing market prices.

Offers to purchase securities may be solicited directly by us or by agents designated by us from time to time. Any such agent may be deemed to be an underwriter, as that term is defined in the Securities Act, of the securities so offered and sold.

If underwriters are utilized in the sale of any securities in respect of which this prospectus is being delivered, such securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at fixed public offering prices or at varying prices determined by the underwriters at the time of sale. Underwriters may offer securities to the public either through underwriting syndicates represented by managing underwriters or directly by one or more underwriters. If any underwriter or underwriters are utilized in the sale of securities, unless otherwise indicated in the applicable prospectus supplement and/or other offering material, the obligations of the underwriters are subject to certain conditions precedent, and the underwriters will be obligated to purchase all such securities if they purchase any of them.

If a dealer is utilized in the sale of the securities in respect of which this prospectus is delivered, we will sell such securities to the dealer, as principal. The dealer may then resell such securities to the public at varying prices to be determined by such dealer at the time of resale. Transactions through brokers or dealers may include block trades in which brokers or dealers will attempt to sell shares as agent but may position and resell as principal to facilitate the transaction or in cross trades, in which the same broker or dealer acts as agent on both sides of the trade. Any such dealer may be deemed to be an underwriter, as such term is defined in the Securities Act, of the securities so offered and sold.

Agents, underwriters and dealers may be entitled under relevant agreements with us to indemnification by us against certain liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which such agents, underwriters and dealers may be required to make in respect thereof. The terms and conditions of any indemnification or contribution will be described in the applicable prospectus supplement and/or other offering material.

We may enter into derivative, sale or forward sale transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement and/or other offering material indicates, in connection with those transactions, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement and/or other offering material, including in short sale transactions and by issuing securities not covered by this prospectus but convertible into, exchangeable for or representing beneficial interests in securities covered by this prospectus, or the return of which is derived in whole or in part from the value of such securities. The third parties may use securities received under derivative, sale or forward sale transactions or securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock and may use securities received from us in settlement of those transactions to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and will be identified in the applicable prospectus supplement (or a post-effective amendment) and/or other offering material.

## Table of Contents

Underwriters, broker-dealers or agents may receive compensation in the form of commissions, discounts or concessions from us. Underwriters, broker-dealers or agents may also receive compensation from the purchasers of shares for whom they act as agents or to whom they sell as principals, or both. Compensation as to a particular underwriter, broker-dealer or agent will be in amounts to be negotiated in connection with transactions involving shares and might be in excess of customary commissions. In effecting sales, broker-dealers engaged by us may arrange for other broker-dealers to participate in the resales.

Any securities offered other than common stock will be a new issue and other than the common stock, which is listed on The NASDAQ Capital Market, will have no established trading market. We may elect to list any series of securities on an exchange, and in the case of the common stock, on any additional exchange, but, unless otherwise specified in the applicable prospectus supplement and/or other offering material, we shall not be obligated to do so. No assurance can be given as to the liquidity of the trading market for any of the securities.

Agents, underwriters and dealers may engage in transactions with, or perform services for, us and/or our subsidiaries in the ordinary course of business.

Any underwriter may engage in overallotment, stabilizing transactions, short covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Overallotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time. An underwriter may carry out these transactions on The NASDAQ Capital Market, in the over-the-counter market or otherwise.

The place and time of delivery for securities will be set forth in the accompanying prospectus supplement and/or other offering material for such securities.
