# LM Funding America, Inc. Reports Financial Results and Provides Business Update for the Second Quarter of 2022

On track for over 5,000 miners to be operational by Q4 2022, with total capacity of 504 petahash

Reports working capital of \$21.2 million and stockholders' equity of \$65.2 million (\$4.98 per share) as of June 30, 2022

Conference Call To Be Held Wednesday, August 17th at 11:00 AM

TAMPA, FL, August 17, 2022-- LM Funding America, Inc. (NASDAQ:LMFA) ("LM Funding" or the "Company") a technology-based specialty finance company with a primary focus on expanding into the cryptocurrency mining business, today provided a business update and reported financial results for the three months ended June 30, 2022.

Bruce Rodgers, Chairman and CEO of LM Funding, commented, "We are continuing to execute on our Bitcoin mining strategy, which began in late 2021. We have already placed 2,690 of the mining machines that we committed to purchase last year with Compute North and are currently on track for over 5,000 miners to be operational by the fourth quarter, which would provide us capacity of approximately 504 petahash. As a result of the variable pricing structure we negotiated with our mining machine supplier, pegged to the price of Bitcoin, we have secured over \$2 million in rebate credits. As we move forward, we plan to maintain a disciplined approach of opportunistically purchasing and cost-effectively operating Bitcoin mining machines in order to maximize long-term value for shareholders."

Richard Russell, Chief Financial Officer of LM Funding, added, "As sponsor and founding stockholder of LMF Acquisition Opportunities, Inc. ("LMAO"), a special purpose acquisition company (SPAC), we continue our focus on the proposed merger with SeaStar Medical. Based on the status of the pending merger, as of June 30, 2022, the Company recalculated the fair value of our interests in LMAO, which included a reassessment of the risk of forfeiture, and concluded the risk of forfeiture has decreased versus the first quarter and the value of our retained interest has accordingly increased. As a result, we recognized an unrealized gain on securities of \$12.2 million for the three months ended June 30, 2022."

### Financial Highlights for the Three Months ended June 30, 2022

- Cash of \$17 million and working capital of \$21.2 million as of June 30, 2022
- Total stockholders' equity of \$65.2 million and net equity per share of \$4.98 as of June 30, 2022 (calculated as stockholders' equity divided by 13,091,883 shares outstanding as of June 30, 2022)
- Revenues for the quarter ended June 30, 2022 were \$235,000 as compared to \$328,000 for the comparable quarter in 2021, due to the shift in focus to Bitcoin mining, as well as the timing of association fee payoffs.
- Net income attributable to LMFA shareholders for the second quarter of 2022 was \$2.8 million compared to \$11.1 million for the three months ended June 30, 2021. Net income in the second quarter of 2022, included an unrealized gain on investment and equity securities of \$12.2 million related to the Company's interest in LMAO, partially offset by \$3.6 million of non-cash, stock-based compensation expense. The 2021 second quarter included an \$8.5 million realized gain on securities and a \$2.5 million unrealized gain on convertible debt security, both related to the Company's investment in Borqs.
